Objective

Passionate Front-End Developer skilled in building responsive, user-friendly web applications using modern technologies like React, Next.js, and TypeScript. Seeking opportunities to contribute to impactful projects and grow within a dynamic development team.

Education

Student at Computer Science & AI - Ahram Canadian University 2022 – Present

Internships

Front-End with React Information Technology Institute (ITI)	Jun 2025 – July 2025
Web Developer , TDS AVENUE CODEFORGE	Aug 2024 – Sep 2024
Front-end Web Developer , Digital Egypt Pioneer Initiative (DEPI)	Apr 2024 – Oct 2024
Web Developer , CodeAlpha	May 2024 – Aug 2024

Courses

Front-End Development (React & Next.js) – Route Academy	Aug 2025 – Feb 2026
Modern JavaScript - Mahara-Tech	Oct 2024– Nov 2024
JavaScript - Mahara-Tech	Aug 2024– Oct 2024
Software Development- Frontend Development - DEPI	Apr 2024– Oct 2024
Learn HTML & CSS - Mahara-Tech	Jun 2024– Aug 2024
Business English – National Education Network	Apr 2024– Oct 2024

Projects

CURD App, A simple and responsive CRUD (Create, Read, Update, Delete) application
Using tools: HTML, CSS, Bootstrap, JS, ES6

E-commerce platform, Developed an E-commerce platform for my DEPI graduation project, featuring intuitive design, product categories, and responsive functionality across all devices.
Using tools: HTML, CSS, Bootstrap, JS, ES6 (Teamwork)

Bookmark Manager, A simple and elegant bookmark manager that allows users to add, visit, and delete favorite websites with all data stored in localStorage. Features modern UI and user-

friendly validation using SweetAlert.

Using tools: HTML, CSS, Bootstrap, JavaScript.

Weather Forecast Website, A modern, responsive weather app that auto-detects user location and provides a 3-day forecast, including temperature, weather condition, humidity, wind speed, and direction. Users can search for any city worldwide with live updates.

Using tools: HTML5, CSS3, Bootstrap, JavaScript, WeatherAPI, SweetAlert2.

Real Estate Project, This app allows users to browse, filter, and sort property listings in real-time with a modern, responsive interface.

Using tools: HTML5, CSS3.5, Bootstrap, JS, ESNext (Teamwork).

Smart Login System, A modern login and registration system that allows users to register, log in, and log out while storing data locally. Includes real-time input validation, elegant popup alerts, and personalized home page messages.

Using tools: HTML5, CSS3, Bootstrap 5, JavaScript (ES6),
SweetAlert2, Local Storage.

Yummy, Food Recipe Website – A simple, responsive food recipe website that allows users to search meals, browse by category, area, or ingredient, and view detailed recipes.

Using tools: HTML5, CSS3, Bootstrap 5, JavaScript & jQuery,
TheMealDB API, SweetAlert2.

Game Reviews Web App, A responsive web application for browsing free-to-play games, built to practice OOP concepts using JavaScript ES6 Classes only.

Using tools: HTML5, CSS3, JavaScript ES6 Classes, Bootstrap 5,
Free-to-Play Games Database API.

Recipe App, A modern, responsive recipe application that lets users browse meals by category, view detailed ingredients and instructions, and navigate seamlessly.

Using tools: React, TailwindCSS, React Router, Axios, TheMealDB API

Postify Social Media App, A modern full-featured social media application that allows users to create posts, interact through likes and comments, follow/unfollow users, and receive real-time updates. The app features secure authentication, responsive design, dark/light mode, and optimized performance using modern React patterns.

Using tools: React, Vite, Tailwind CSS, React Router, TanStack Query, Axios,
React Hook Form, Zod, HeroUI.

Watchio Movie App, A modern movie discovery platform that allows users to browse trending movies, search for films and actors, view detailed movie information including cast, trailers, reviews, and recommendations, as well as manage personalized Favorites and Watch Later lists with persistent local storage. The application features responsive design, smooth animations, optimized API caching, and a premium cinematic user experience.

Using tools: React Redux Persist, TanStack Query, Axios, Framer Motion,
Swiper, React Router, TMDB API.

SnapCart E-Commerce Platform, Developed a production-ready e-commerce application as the final project of my Front-End Diploma at Route Academy, featuring shopping cart, wishlist, order tracking, secure authentication, and responsive design.

Using tools: Next.js 16 (App Router), TypeScript, Tailwind CSS, shadcn/ui, React Hook Form, Zod, Server Actions

Skills

- **Frontend Core** : HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries** : React, Next.js, jQuery
- **State Management & Data Fetching** : Redux Toolkit, Redux Persist, TanStack Query, Axios, REST APIs
- **Styling** : Tailwind CSS, Bootstrap, Responsive Design, Dark/Light Mode
- **UI Libraries** : shadcn/ui, HeroUI
- **Forms & Validation** : React Hook Form, Zod
- **Tools & Build Systems** : Vite, Git, GitHub
- **Programming Fundamentals** : C++, Python, C# , OOP, Data Structures, Problem Solving

Soft Skills

- Develop creative solutions to problems and successfully challenge conventional practices.
- Meticulous with detail, ensuring high accuracy and consistency in coding and design elements.
- Quickly learn and apply new technologies to meet evolving project demands and challenges.
- Communicate clearly and concisely with credibility and confidence to achieve project goals.

Language Skills

Arabic – Native

English – B2

Deutsch - Basics

Extracurricular & Volunteer Work

Volunteer as organizer member, Minders

Feb 2022 –Oct 2022
